## My Homework

## Lesson 5

Composite Shapes

## Homework Helper

$\square$ Need help? $\checkmark$ connectED.mcgraw-hill.com
You can put shapes together to make a new shape.

## Practice

Circle the two pattern blocks used to make each shape. Draw a line to show your model.
I.

2.

## Circle the two pattern blocks used to make each shape. Draw a line to show your model.

3. 

4.

5. How many does it take to make

## Test Practice

6. Elan put together the two shapes shown. What new shape did he make?

square $\bigcirc$
rectangle

triangle

trapezoid

Math at Home Ask your child to tell you how to compose a rectangle using two other shapes.
