

Draw to Show Parts

What You Need

- Recording Sheet

Check Understanding

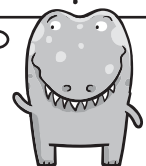

Say: Draw a rectangle. Draw lines to show 4 equal parts. Then shade half of the rectangle.

What You Do

1. Take turns. Pick a letter.
2. Find the letter on the **Recording Sheet**.
3. Mark the shape as directed.
4. Your partner checks your work.
5. Repeat until all the letters are used.

A	Draw 2 unequal parts.
B	Draw to show halves.
C	Draw to show fourths.
D	Draw 4 equal parts.
E	Draw 4 unequal parts.
F	Draw to show quarters.

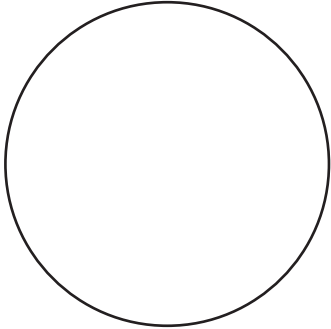

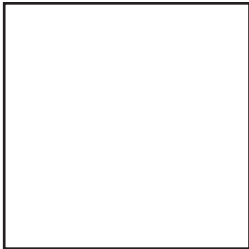

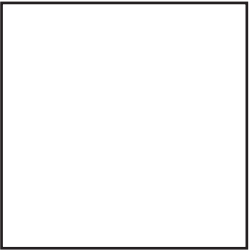

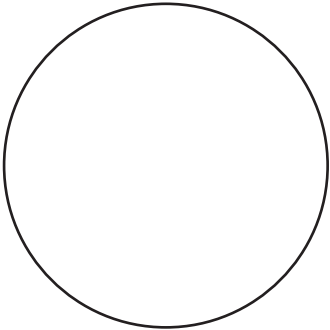

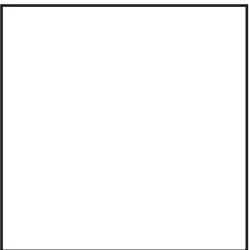

I can use what I know about putting shapes together to show parts of shapes.

Go Further!

Shade part of a shape. Ask your partner what part of the shape is shaded.
