

Lesson 1 Reteach

Metric Units of Length

Here are some everyday items that will help you estimate and measure metric units.

Unit	Example	Unit	Example
millimeter	thickness of a dime 	meter	
centimeter		kilometer	The race was 1 kilometer or 1,000 meters long. 

Choose the best estimate.

1. a leaf

<p>A. 20 millimeters</p> <p>B. 20 kilometers</p>	<p>C. 20 meters</p> <p>D. 20 centimeters</p>	<p>1. _____</p>
--	--	------------------------
2. an airport runway

<p>F. 1 kilometer</p> <p>G. 1 millimeter</p>	<p>H. 1 meter</p> <p>I. 1 centimeter</p>	<p>2. _____</p>
--	--	------------------------
3. a fingernail

<p>A. 6 meters</p> <p>B. 6 kilometers</p>	<p>C. 6 millimeters</p> <p>D. 6 centimeters</p>	<p>3. _____</p>
---	---	------------------------
4. a school bus

<p>F. 10 centimeters</p> <p>G. 10 meters</p>	<p>H. 10 kilometers</p> <p>I. 10 millimeters</p>	<p>4. _____</p>
--	--	------------------------
5. A car is about 2 meters long. Name something else that is 2 meters long. _____
