## Lesson 3 Reteach

## Addition Patterns

You can use a number grid to find patterns in numbers.
As you look across a row from left to right, the numbers increase by 1 . The pattern is +1 , so the number in the ones place increases by 1 each time. As you look across a row from right to left, the numbers decrease by 1 each time. The pattern is -1 . As you look at a column from top to bottom, the numbers increase by 10 . The pattern is +10 , so the number in the tens place increases by 1 each time. As you look at a column from bottom to top, the numbers decrease by 10 each time. The

You can find the same kind of number patterns in greater numbers.

If the pattern is +100 , the digit in the hundreds place increases by 1 each time. If the pattern is $-1,000$, the digit in the thousands place decreases by 1 each time.

## Write the number.
