# My Homework

## Lesson 7

### Count Back by 10s

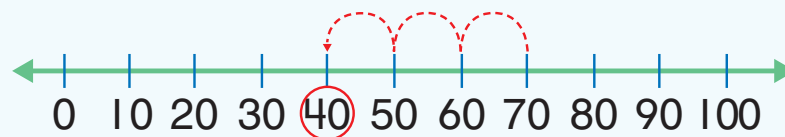

### Homework Helper

Need help? [connectED.mcgraw-hill.com](http://connectED.mcgraw-hill.com)

To find  $70 - 30$ , start at 70.

Count back by tens on a number line.

$$70 - 30 = 40$$

## Practice

Use the number line to subtract. Show your work.  
Write the difference.

1.  $60 - 20 =$  \_\_\_\_\_

2.  $90 - 10 =$  \_\_\_\_\_

3.  $80 - 30 =$  \_\_\_\_\_

Use the number line to help you subtract.

Write the difference.

4.  $50 - 40 = \underline{\hspace{2cm}}$

5.  $80 - 10 = \underline{\hspace{2cm}}$

6.  $30 - 10 = \underline{\hspace{2cm}}$

7.  $70 - 20 = \underline{\hspace{2cm}}$

8. 
$$\begin{array}{r} 90 \\ - 30 \\ \hline \end{array}$$

9. 
$$\begin{array}{r} 40 \\ - 10 \\ \hline \end{array}$$

10. 
$$\begin{array}{r} 60 \\ - 40 \\ \hline \end{array}$$

11. There are 30 children in line to go down a slide. 10 children go down the slide. How many children are still in line?

           children

## Test Practice

12.  $70 - 10 = \underline{\hspace{2cm}}$

60

70

80

90

**Math at Home** Have your child show  $60 - 20$  using a number line. Have him or her explain how they use the number line as they subtract.
