# My Homework

Lesson 6

Problem-Solving:  
Act It Out

## Homework Helper

Need help? [connectED.mcgraw-hill.com](http://connectED.mcgraw-hill.com)

There are 4 red pails. There are 3 more yellow pails than red pails. How many yellow pails are there?

**1 Understand** Underline what you know. Circle what you need to find.

**2 Plan** How will I solve the problem?

**3 Solve** I will act it out.

There are 7 yellow pails.

**4 Check** Is my answer reasonable?

## Problem Solving

**Underline what you know. Circle what you need to find. Act out the problem to solve. Use dry cereal.**

1. A hot dog vendor sold 9 **hot dogs** on Monday. She sold the same number of **hot dogs** on Tuesday. How many **hot dogs** did she sell in all?

\_\_\_\_\_ **hot dogs**

2. There are 4 **people** jogging. There are 5 more **people** walking than jogging. How many **people** are walking?

\_\_\_\_\_ **people**

3. A monkey ate 5 **peanuts**.  
An elephant ate some **peanuts**.  
They ate 9 **peanuts** in all. How many **peanuts** did the elephant eat?

\_\_\_\_\_ **peanuts**

**Math at Home** Take advantage of problem-solving opportunities during daily routines such as riding in the car, doing laundry, putting away groceries, planning schedules, and so on.
