Ryan sees two colors of birds. He sees a total of 18 birds in all. Which two colors of birds does he see?

1 Understand Underline what you know. Circle what you need to find.

2 Plan How will I solve the problem?

3 Solve I will guess, check, and revise.

$$9 + 10 = 19 \quad \text{too many}$$

$$9 + 8 = 17 \quad \text{not enough}$$

$$10 + 8 = 18 \quad \text{correct}$$

The colors of the birds are yellow and red.

4 Check Is my answer reasonable?

Problem Solving

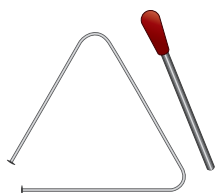

Let's color!

Underline what you know.
Circle what you need to find.

1. Harper draws 12 **pictures**. Raven draws some **pictures**. Together they drew 15 **pictures**. How many **pictures** did Raven draw?

_____ **pictures**

2. There are 37 students in the band. The students play only two types of **instruments**. Each student plays one **instrument**. What two **instruments** are played? Circle them.

31

7

6

3. Viviana jumps rope 52 **times**. Josiah jumps rope 7 **times**. Adam jumps rope 6 **times**. What two children jump rope 59 **times**?

Math at Home Take advantage of problem-solving opportunities during daily routines such as riding in the car, bedtime, doing laundry, putting away groceries, planning schedules, and so on.
