The pictures on a picture graph tell how many.

What color has the most votes?

blue

Practice

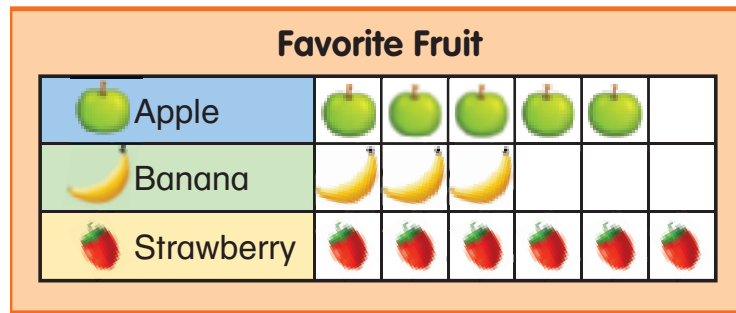

Use the graph to answer the questions.

1. Do more students like baseball or track?

2. How many students voted for basketball?

Use the graph to answer the questions.

- Do more people like bananas or strawberries?

- What fruit has 3 votes? _____
- How many people like apples? _____
- How many more votes are there for strawberries than for apples? _____

Test Practice

- Each picture in a picture graph stands for how many votes?

1 2 3 4

Math at Home Have your child gather 3 different kinds of coins from around the house. Have him or her lay them out in separate rows according to the type of coin. Then ask your child questions about the number of coins in each group.
