There are 8 players on the tennis team. Each family contributes \$10 toward a gift for the coach. What is the total amount collected for the coach's gift?

Find $8 \times \$10$.

Skip count by tens.

So, the total amount collected from 8 families was \$80.

Practice

Skip count by tens to find each product. Write the addition sentence.

1. $5 \times 10 =$ _____

2. $2 \times 10 =$ _____

3. $7 \times 10 =$ _____

4. $3 \times 10 =$ _____

Algebra Use the number line to find each unknown.

5. $\blacksquare \times 4 = 40$

$4 \times \blacksquare = 40$

6. $10 \times \blacksquare = 20$

$\blacksquare \times 10 = 20$

7. $10 \times \blacksquare = 50$

$\blacksquare \times 10 = 50$

The unknown is _____. The unknown is _____. The unknown is _____.

Problem Solving

For Exercises 8–9, write a multiplication sentence to solve.

8. Fiona's class went on a field trip to the art museum. The class rode in vans with 10 people in each van. How many people went on the field trip if they took 4 full vans?

9. **Mathematical PRACTICE**  **Use Math Tools** During the football game, Carlos ran with the ball 3 times. Each time, he ran 10 yards. How many yards did Carlos run altogether?

10. Each time Allison goes to the recycling center, she takes 10 bags of cans. She will go twice this month, 3 times next month, and once the following month. How many bags of cans will Allison take to the recycling center in these three months?

Test Practice

11. Byron has 70 pennies. He stacks them in groups of 10. How many stacks of pennies can Byron make?
- (A) 7 stacks (C) 9 stacks
(B) 8 stacks (D) 10 stacks
