Multiplication by 2

⟹ Directions: Find the products.

When you multiply (times) by 2, it is the same as a doubles fact. For example, the answer to 4 x 2 is the same as the answer to 4 + 4.

$$4 \times 2 = 8 \qquad \text{and} \qquad 4 + 4 = 8$$

The answer to an addition problem is called a sum.
The answer to a multiplication problem is called a product.
