

## Spelling Homework Directions

We are ready to start Spelling Homework at 100%. Up until now, we were gradually adding one component at a time.

Here are your basic directions.

Monday (15 minutes):

- Print and cut out the sort that is posted weekly (I usually post over the weekend so you can print early if needed)
- Perform a Regular Sort (This is where the sort is done according to the spelling patterns being studied that week)
- Open Google Chrome and go to [classroom.google.com](https://classroom.google.com). Log in and open the assignment Spelling MT/DD, create a document, and type the sort. This may be done in columns or lines. Please do what causes the least stress and time.
- DO NOT SUBMIT, just close and you are done for the day! Please note, Google will save without you having to click save.

Tuesday – Thursday (15 minutes each day)

- Choose one of the sorts
- Open the Google Classroom and go to the document you typed your Monday sort on.
- If you are doing Sentence Sort or No Peeky Sort, just type them right on the document.
- If you do Speed Sort, just let me know that you did you it and the day.

You may choose which day to do which sort. Speed Sort is best for your busiest night of the week as you can do it quickly and almost anywhere.
